PROFESSIONAL SUMMARY

Web Developer with 5+ years of experience building and maintaining scalable web applications. Skilled in JavaScript, TypeScript, Vue.js, React.js, Node.js, and PHP/Laravel. Experienced in API integrations, frontend UI implementation, and database management. Proficient in translating Figma and Adobe design assets into responsive web interfaces. Adept at working in Linux environments, maintaining production systems, and providing IT support. Strong problem solver with a track record of modernizing legacy systems and delivering user-friendly solutions.

WORK EXPERIENCE

Web Developer | Andy Experiences *July 2026 – Present*

- Designed and built the company website, including SEO integration and web performance optimization.
- Developed a custom WordPress plugin tailored to internal needs.
- Built internal tools to support day-to-day company workflows.
- Edited video content to support marketing initiatives.

Web Developer | Advanced Technology Integrations (ATI LLC) *April – June 2026*

- Contributed to an internal Vue.js tool, integrating Stripe for payment processing.
- Improved the markdown parser that turns AI-generated replies into structured JSON and formatted HTML.

Web Developer / IT Specialist | Profound Logic *2022 – 2026*

- Provided IT support including technical assistance, troubleshooting, and maintenance of internal IBM i systems.
- Transitioned to UI development, modernizing legacy IBM i applications using vanilla JavaScript and internal libraries.
- Designed and implemented responsive, user-friendly web interfaces integrated with backend IBM i services.
- Identified and resolved bugs efficiently through a ticketing system, ensuring system stability and smooth user experience.

Freelance Web Developer | Self-Employed *2020 – 2022*

- Developed and maintained custom web applications for diverse clients using JavaScript, React.js, PHP, and Laravel.
- Built responsive user interfaces from Figma and Adobe design prototypes, ensuring pixel-perfect implementation.

Web Developer / IT Support | Seahaven Business Solutions *2018 – 2020*

- Contributed to development of an inventory management system with integrations for Amazon MWS, eBay API, Newegg API, Walmart API, and other marketplace platforms.
- Built and maintained web applications using PHP, Laravel, JavaScript, and MySQL.
- Developed and customized WordPress websites for clients.
- Provided technical support including hardware troubleshooting, software installation, and system maintenance.
- Assisted the IT Head in improving internal company systems and processes.
- Managed client websites, emails, and system maintenance as part of senior development responsibilities.
